

Alberto Rodríguez García

Summary

I'm a Front-End Developer with more than 2 years of freelance experience. During this time, I have worked on numerous projects, gaining skills in application development, website programming and digital marketing.

I am a highly determined, curious, and open-minded individual. I approach my work with passion and dedication, always striving to achieve set goals. I continuously expand my knowledge and skills through ongoing learning and professional development courses to stay up-to-date with the latest tech solutions.

Relevant Experience

Front-end Developer · **Self-employed** Feb 2020 – Present

- Collaborated with clients to understand their business requirements and create customized web solutions.
- Developed responsive and interactive websites using technologies such as ReactJS, Angular, JavaScript, HTML, and CSS.
- Implemented SEO optimization strategies to improve search engine rankings and increase website visibility.
- Provided ongoing maintenance and support to ensure the smooth functioning of websites and applications.

Software engineer · **ECIE** Dec 2018 – Jun 2019

- Developed mobile applications and websites for project control, personal work areas, and time tracking using Java, HTML, CSS, and JavaScript technologies.
- Collaborated with a team to ensure seamless integration of front-end and back-end functionalities.

Selected Projects
